**NO.OF BEDROOMS = EAST, SOUTH, SOUTHWEST, WEST**

## FLOW OF ENERGIES IN THE HOUSE is good

The lux level in this house is 120 to 100 lux.

The NORTHWEST part of house shows ample of Lunar Energy

The sound in the house is 40db to 60db creates a good environment

Ample flow of air in this because of three sides open indicates strong wind energy.

Plants are natural Air Purifiers

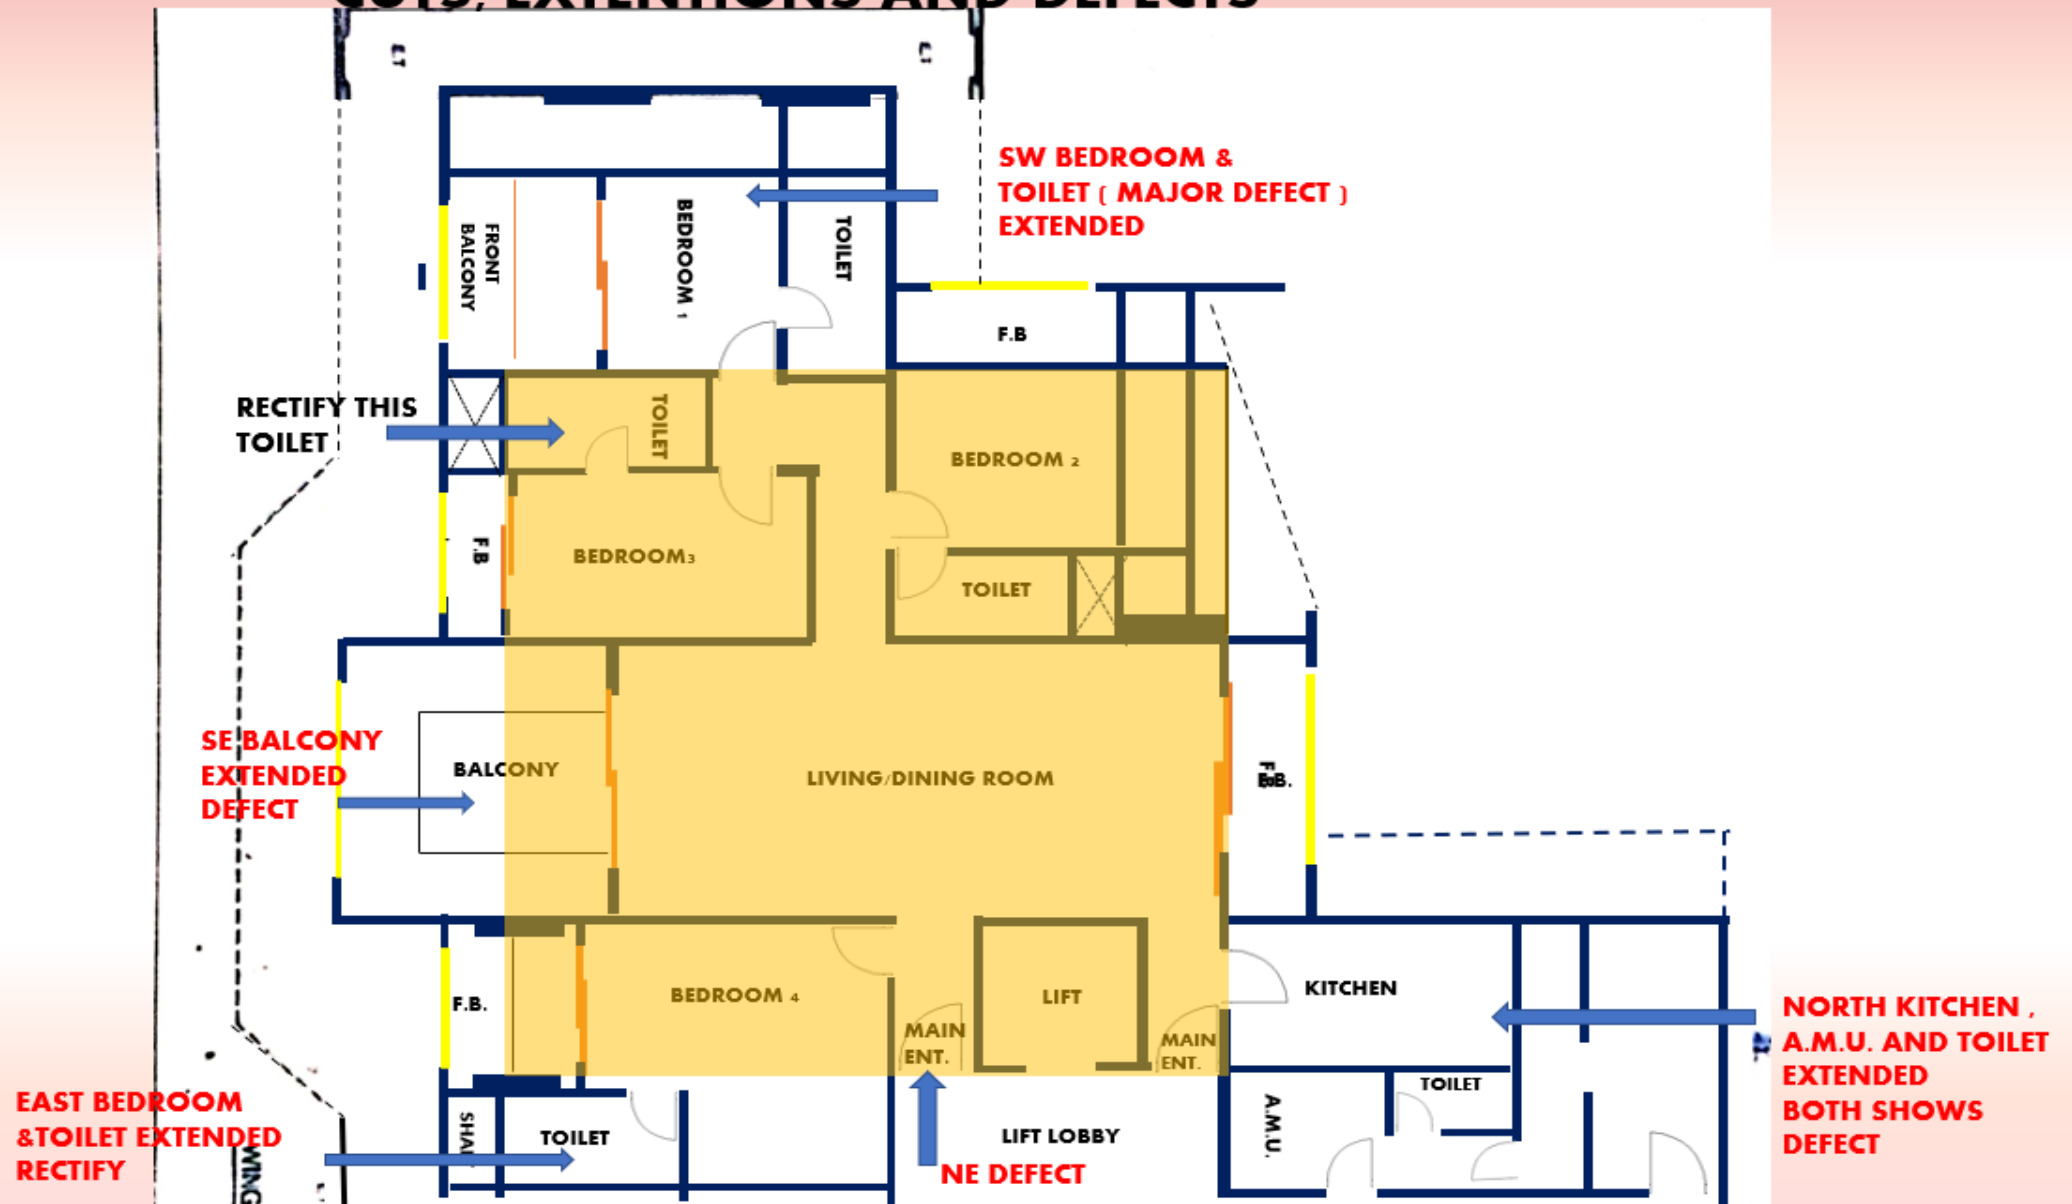

Mumbai lies on the Konkan coast on the west coast of India. **RELATIVE HUMIDITY** is very high throughout the year.

The average Relative Humidity of Mumbai is around 75% although it varies from around 62% during Winter (December) to 89% during the Monsoon (July).

**Dehumidifiers** helps to remove excess moisture , mold, mildew from the air in humid climate in coastal areas.
